

March 2023 Weather Report
Roy Wysnewski

Rainfall & Temperature Data:

Rainfall for month: 0.13 in.
Rainfall year-to-date: 2.82 in.
23 yr. monthly rainfall average: 2.24 in.
Average high temperature: 86.0 F (normal: 79.0 F)
Above normal temperature days: 28
Record-high temperature days: 11

Weather Summary: Record heat with drought-like conditions continue.

Temperature Analysis: The average high temperature (86.0 degrees F) is another record for the Meadows! Other March statistics include twenty-eight above normal temperature-days and a new record number of 'record-high temperature days' (11).

Rainfall Analysis: Once again, rainfall was scarce (6% of normal) – the mini-drought continues. An eighteen-day streak without a drop of rain also is another record!
